

Certified **Industrial** Compostable vs. Certified **HOME** Compostable

Certified Industrial Compostable Bags: Can only be disposed of in a controlled environment where there are **only 185 facilities in the USA**, limiting access to composting the bags.

***May contain plastics, and is not suitable for backyard composting...Industrial ONLY.**

Certified HOME Compostable Bags: A designed earth-friendly bag that brings **rich nutrients** to the soil of backyard gardens and compost heaps. Completely disintegrates within 180 days...

LILBAGIE IS CLEARLY THE BETTER CHOICE!
